4. Applications will be made through the Turkish National Agency Erasmus Application Portal by entering the e-government username-password.
5. Within the framework of the budget allocated to our institution, grant support will be provided to a total of 15 students. In order to benefit more students, grant support will be provided to each student for 1 semester.
6. The total quota for the Faculty of Engineering is 8, for the Faculty of Architecture 2, and for the Faculty of Economics and Administrative Sciences 5. In case of not getting enough points to enter the ranking, quotas will be transferred between departments.
7. Mobility can only be realized in universities and departments with which we have an agreement. If your department does not have an agreement, your application will not be considered. To reach our agreements **[CLICK HERE](#)**.
8. Being selected as a result of the application does not guarantee your mobility. The institution you have been selected for mobility has the right not to accept you.

9. Students who were accepted in the previous semester but failed to realize the mobility cannot be sent directly to the following year. Since mobility announcements are valid for mobility that must be completed within a certain period of time, applying to previous announcements and passing the selection cannot be considered as a “vested right”. Students in this situation must make a new application.
10. All eligible students, regardless of whether they are citizens of the Republic of Turkey or citizens of other countries, can apply for the activity specified in this announcement. There is no restriction for foreign students to benefit from mobility within the framework of the Erasmus+ Program.
11. The possible period for Erasmus+ Student Learning Mobility activities for the academic year 2025-2026, which is opened for application with this announcement, covers the period from September 01, 2025 to February 28, 2026. Student learning mobility activities must be started no later than October 15, 2025 and in any case all mobility activities must be completed no later than February 28, 2026.

Those whose residence permit period is between 01.09.2025-28.02.2026 can apply. Upload the Residence Permit Document as a PDF file with the front and back side as a single file. Please upload the relevant page of your passport as a separate PDF file.
13. **If students return before the minimum period (2 months) is completed, the activity will be deemed invalid and any grant prepayment made to the student will be refunded.**
14. In case of not participating in the mobility without submitting a waiver notification in due time even though selected for the Learning Mobility, in cases other than force majeure (not being able to obtain a visa, etc.), minus points will be applied in case of applying for the next Erasmus mobility.
